PROFILE

Dedicated 12th-grade Software Engineering student at SMKN 1 Ciamis, consistently ranked among the top three students with an average score above 90. Experienced in web and mobile development using React, Laravel, and Node.js, with an interest in building impactful end-to-end applications, particularly AI-driven projects. Skilled in creating intuitive UI/UX designs using Figma and experienced in presenting ideas and communicating professionally. Achieved 3rd Place in the West Java Provincial AI Competency Competition (LKS). Currently seeking an internship / PKL opportunity to apply technical skills, contribute to a professional team, and further develop as a Full-Stack Developer.
